

September 14, 2021

Hello from Place Maillardville Community Centre,

Re: Proof of Vaccination – New Guidelines

There is an updated Government Public Health Order as of September 13, 2021 in regards to attending a Recreation Centre for indoor in-person programming:

For this current Health Order, only the following customers coming to our Centre need to show the appropriate documentation, Proof of Vaccination & Government official ID, when entering our facility to attend a recreation program. The temporary health order has been put in place until January 31, 2022.

Proof of Vaccination is required for the following:

- Adults & seniors (22 years of age and older): registered for any sport, fitness, physically active or dance programs of any size, will need to show proof of Vaccination and Gov't ID at program sign-in.

Proof of Vaccination is NOT required for the following:

- All youth & children's programming for 21 years of age and under
- All adult & senior programs that are passive (not physical)
- All programs & events (excluding adult & senior physical programs) with less than 50 people.

Vaccination Key Dates:

September 13: Partially vaccinated – 1 dose

October 24: Fully vaccinated - You're fully vaccinated 7 days after 2nd dose.

If you anticipate having to modify your enrollment in one of our in-person classes due to this new Public Health Order, please advise us as soon as possible at info@placemaillardville.ca or by phone at [604.933.6166](tel:604.933.6166).

Thank-you,

Diane

Program Manager
